

**American Legion Auxiliary
Department Of Ohio**

Department Chairman,

As many of you are aware the The American Legion Auxiliary National Organizations has changed reporting for the 2019-2020 year. No National reports are due and instead next year will be a 2 year report. I am also attaching the spreadsheet that National sent out with all this information on upcoming dates and what scholarships and other awards will be given this year. Please make sure to look under your chairmanship to make sure you follow their dates.

What does that mean for Ohio? Ohio will still be giving out Department Awards this year. Continue to send your award winner form to the office along with a year end report minus those platform winners. The year end report will be used in The Buckeye Messenger and a separate form will be sent out with all award winners at a later date. For units entering a report for a National Award please return to the unit with a note attached explaining that they can resubmit them next year but will write the narrative covering the period 2019-2021. You can return them to the units at School of Instructions if you choose not to mail them back. The units will receive additional information at the School Of Instructions.

If you have any questions please do not hesitate to give me a call. I will do my best to answer them and if I do not know the answer I will seek it out.

For God and Country,
Kristen Little
Department President
